The Challenge

Firstlight Online was looking for a cost effective, reliable and easy to access solution around Citrix software, for their editorial publishing team in Bangalore.

The desktops suitable for this solution were referred to Parrus IT by a partner.

The Solution: Server-based Thin Client Computing

Parrus IT deployed Capio one and c50 thin clients at their Bangalore office in 2006.

Parrus IT facilitated a POC for Neoware thin clients with the customer applications. Based on this, Neoware c50 thin clients were deployed. These thin clients are connected to IBM servers.

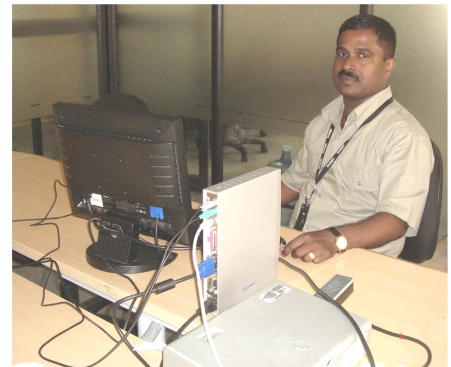

Solution Architecture

- Neoware c50 thin clients from Parrus IT
 - Dual Xeon servers from IBM – 1.8 GHz X 4 GB RAM,
 - Server OS : Windows 2003 32 bit
 - Applications : MS Office, Adobe Photoshop, Image Ready, Browser
 - These clients are used by the editorial publishing team
-

"We are highly content with easy- to-use solution offered by Neoware thin clients and are impressed with the strong technical support provided by Parrus IT team.

*The performance of thin client technology has been very good and we are extremely happy with key benefits **like security of data, low power consumption and less desk space**".*
